Mr. Richard Schassburger
U.S. Department of Energy
Rocky Flats Plant
P.O. Box 928
Golden, CO 80402-0928

Dear Mr. Schassburger:

EPA has received your formal request for extension of the schedule for submittal of the draft and final Resource Conservation and Recovery Act Facility Investigation/Remedial Investigation Report for Operable Unit 3. In order to evaluate your assertion that good cause exists for these Interagency Agreement milestone extensions, we require more specific information regarding your efforts to secure property access agreements from off-site landowners. Information such as the date you began the process of securing these permits, the length of time it took to obtain each permit, the length of time of any resulting field interruptions, and the relationship between these delays and your extension request.

In order to expedite our evaluation, it is my understanding that our respective staffs will meet on July 15, 1993, at 1:00 pm at the Interlocken offices to review the pertinent information. Our point of contact on Operable Unit 3 is Bonnie Lavelle, (303) 294-1067.

Sincerely,

Martin Hestmark
